TUCSON

Count the small wins.

Realizing that you are a canvas of endless potential, you are constantly challenging yourself to be better. It's time to discover the undiscovered. Start small, make a mess, but just keep going. Treasure every moment and experience, because each mark represents your growth.

Exterior design that says you are here.

Make your presence known and don't be shy about it. The new Tucson's refreshed look immediately stands out from the crowd, from its redesigned headlamps and radiator grille to its dynamic-looking wheel designs, rear combination lamps and rear bumper.

The new Tucson's Full LED Headlamps with Positioning Lamps and Low Beam Assist-Static lights, together with LED Rear Combination Lamps with improved visibility, offer not only a new look, but better reliability and safety.

LED Outside Mirror Repeaters & Puddle Lamps

Safety Power Window (Driver's seat only)

Seek your adventure in ultimate comfort.

Tucson's 10-way adjustable driver's seat will provide all the comfort you need while you work hard and play even harder. Adjust your seat to any situation while enjoying Tucson's advanced convenience features such as Apple CarPlay and wireless charging for your smartphone. No matter how odd-shaped your latest challenge may be, Tucson can easily adapt with its diverse seat adjustment features and its large load space.

Drive Mode

Cruise Control

10-Way Adjustable Driver's Seat

Front Seat Warming & Cooling Air Ventilation

Reclining Rear Seats

Be as daring as you want - you're safe with Tucson.

The advanced driving technologies applied to the new Tucson are based on rigorous safety measures you can always rely on.

HTRAC All-Wheel Drive

HTRAC is an electronic all-wheel drive system that automatically detects vehicle's speed and road conditions to control braking between the left and right wheels and apply active torque control between the front and rear axles, in order to ensure stability while driving and cornering on slippery roads.

Advanced High Strength Steel (AHSS)

By increasing use of Advanced High Strength Steel (AHSS) to 51% of the body and hot stamping the passenger compartment, Tucson offers greater sturdiness and safety.

Straightened body connections and installation of load paths improve the vehicle's performance in collision tests, ensuring greater safety in real life situations.

6-Airbag System

A driver's airbag, passenger's airbag, 2-side airbags, and curtain airbags protect passengers in the event of a collision.

Electronic Stability Program (ESP)
